Android Studio

🔧 Fix Me!

- [How to launch an Activity from another Application in Android](#)
- [Android TV Developer Documentation](#)
- [Android - Launcher Icon Size](#)
- [Dalvik opcodes](#)
- To make a release build instead of a debug build, click on "Build Variants" at the bottom left of Android Studio 4.1, then change "Active Build Variant" to *release*.
- Install my

Netflix Launcher

apk file to make Netflix available for the Android TV Launcher and Home Screen.
