

Backup Server - Debian Bullseye 11.6

Hestia - Upgrade Debian 9 to 10 to 11

1. Follow entire chapter 4 in detail: [Upgrades from Debian 9 \(stretch\)](#)
2. Follow entire chapter 4 in detail: [Upgrades from Debian 10 \(buster\)](#)
3. Modifications:
 1. During the upgrade process you need to uninstall ping, we therefore need to reinstall:

```
sudo apt install inetutils-ping
```

2. Install [Services - rc.local](#)

Debian 11

- [Debian 11 setup](#)
- [Change desktop from LXDE to XFCE](#)
