

Configuration

Shell prompt

Change the shell prompt for root and your user. The lines containing 'SUDO_PS1' are required if you choose to install 'sudo' through [Package Managment](#):

```
$ vi ~/.profile
PS1='\u@\h:\w\$ '
SUDO_PS1='\u@\h:\w\$ '
export SUDO_PS1
```

Path environment after installation of ipkg

Add the following line to the end of the profiles of root and your user:

```
$ vi ~/.profile
PATH=/opt/bin:/opt/sbin:$PATH
```

Customize the Desktop

Background image: **User menu -> Options -> Desktop**
