PerformanceTest

Benchmark	Result	Benchmark	Result
PassMark (specs online) Core i7-12700H Iris Xe (iGPU) DDR5 SODIMM 2 x 8GB EM 512GB	 The screenshot shows the PassMark Rating window. It features a large circular gauge with a needle pointing to the score. The score is 4044, which is 45% above the world average of 2800. The system is compared to the world average and the world maximum. The score is also shown in a table at the bottom.	CPU Mark Core i7-12700H Iris Xe (iGPU) DDR5 SODIMM 2 x 8GB EM 512GB	 The screenshot shows the CPU Mark window. It features a large circular gauge with a needle pointing to the score. The score is 20125, which is 70% above the world average of 11800. The system is compared to the world average and the world maximum. The score is also shown in a table at the bottom.
2D Mark Core i7-12700H Iris Xe (iGPU) DDR5 SODIMM 2 x 8GB EM 512GB	 The screenshot shows the 2D Graphics Mark window. It features a large circular gauge with a needle pointing to the score. The score is 392, which is 34% above the world average of 292. The system is compared to the world average and the world maximum. The score is also shown in a table at the bottom.	3D Mark Core i7-12700H Iris Xe (iGPU) DDR5 SODIMM 2 x 8GB EM 512GB	 The screenshot shows the 3D Graphics Mark window. It features a large circular gauge with a needle pointing to the score. The score is 3053, which is 32% above the world average of 2270. The system is compared to the world average and the world maximum. The score is also shown in a table at the bottom.
Memory Mark Core i7-12700H Iris Xe (iGPU) DDR5 SODIMM 2 x 8GB EM 512GB	 The screenshot shows the Memory Mark window. It features a large circular gauge with a needle pointing to the score. The score is 2689, which is 50% above the world average of 1790. The system is compared to the world average and the world maximum. The score is also shown in a table at the bottom.	Disk Mark Core i7-12700H Iris Xe (iGPU) DDR5 SODIMM 2 x 8GB EM 512GB	 The screenshot shows the Disk Mark window. It features a large circular gauge with a needle pointing to the score. The score is 14516, which is 55% above the world average of 9360. The system is compared to the world average and the world maximum. The score is also shown in a table at the bottom.
