Installation Help

General Hints

Configuration issues

Make sure you select mysqli as database driver if you are using PHP 5.0 or later and MySQL 4.1 or later. This is an improved db driver.

Upgrading

TinyMCE UI changed after upgrade from Joomla Version 1.5.10 to 1.5.12 and higher

Go to menu Extensions –> Plugins –> choose "Editor - TinyMCE 2.0". Set Functionality to **Extended** instead of *Advanced*
