## Migration

### Migrate J3.10 to J4.4.14

This migration does not work under WSL, must execute on a live site

Check whether it's a file permission issue: [WSL Settings](#)

1. Change ownership of all files to `www-data:www-data`
2. Uninstall Akeeba Backup 8.4.1.1
3. Install Akeeba Magic Eraser - ignore all error messages
4. Install [Phoca Download](#) 4.0.9 over 3.2.3
5. Disable Plugin "System - Kunena Forum"
6. Disable Plugin "System - Bethico"
7. Disable Plugin "System - Bethico System Plugin"
8. Disable Plugin "Quick Icon - Kunena Forum"
9. Go To "Components - Joomla Update", click *Options* and select *Joomla Next* in *Update Channel*
10. Go To "Components - Joomla Update" and do the Live Update to Joomla 4.4.14
11. Install Akeeba Backup 10.0.3
12. Akeeba Backup configuration, then take a backup

### Migrate J4.4.13 to J5.1.3

This migration works under WSL

1. Copy the backup of version 4.4.13 to a local folder, then unzip from within WSL and change ownership to `www-data`
2. Start the update from Joomla's back-end
3. Make sure file permissions are enabled in [WSL Settings](#), otherwise it is not possible to install extensions
4. Update Plugin "System - Bethico"
5. Enable "Track Session Metadata" in Global Configuration → System → System

## Bethicoleague Component

1. copy the following folders from "ipl" to "ipl4"

- components/com\_bethico
- administrator/components/com\_bethico
- media/bethico
- media/com\_bethico

## Bethicoleague Template

Abandon the bethicoleague template and integrate into cassiopeia, which will give us a much easier way to maintain the template.

1. create a child template for cassiopeia named cassiopeia\_bethicoleague
2. move Webmaster settings to new module
3. move "Login" from "Member Menu" to "Main Menu"
4. install plg\_system\_bethicofa first, then discover
5. Menu Items: go to each Menu Item → Link Type and set Link Icon Class and Display Menu Item Title
6. move login disabled to module
7. updated plugin plg\_system\_bethicoFA
8. strings in install package wrong for mod\_bethico\_switcher
