

# Install Network UPS Tools

Not finished, work in progress ...

## Install

```
apt-get install nut nut-cgi
```

## Configure nut

```
cp -a /usr/share/doc/nut/examples/ups.conf /etc/nut
cp -a /usr/share/doc/nut/examples/upsd.conf /etc/nut
chown nut:nut /dev/ttyS0
```

vim ups.conf

```
[power]
driver = powercom
port = /dev/ttyS0
desc = "Powercom UPS System"
```

## Setup web interface

```
cp -a /usr/share/doc/nut-cgi/examples/* /usr/share/nut
cd /var/www
ln -s /usr/share/nut ups
```

access the web interface at <http://localhost/ups/upsstats.html>
