

Video ripping

Tools

- MakeMKV 1.9.2 - Rip DVD and BD. Handles copy protection. Mandatory for BD.
- Handbrake svn5274 - Compress mkv file. Can also rip DVD.
- AnyDVD HD 7.0.9.0 - Handles copy protection.
- VLC Player 2.0.8 - Plays mkv files. Can also transcode mkv files.
- MKVmerge GUI 6.4.1 - Transcodes mkv files. Can also merge several mkv files into one.
- RipIt4Me 1.7.1.0 - Rip DVD to folder with same file structure.
(<http://www.videohelp.com/tools/RipIt4Me>)
- VOB Blanker 2.1.3.0 - modify DVD's VOB. (<http://www.videohelp.com/tools/VobBlanker>)
- [APowerSoft online Video Converter](#)

All DVDs and BDs are ripped with MakeMKV and then transcoded with Handbrake, except the discs mentioned below.

Merge files after MakeMKV but before Handbrake, because merging with different compression will lead to artifacts around the merge area!

VCDs

Use APowerSoft online Video Converter to convert the .dat files from the VCD to .mkv, then encode with Handbrake
