

Clone VirtualBox machine

In order to move vdi and image file to another location, change the following (highlighted in bold) in **VirtualBox.xml** to reflect it (no changes in uuid is required)

```
<MachineRegistry>
```

```
<MachineEntry uuid="{5bababfa-ad62-471c-44b8-24bc07022f03}"  
src="Machines/winXP/winXP.xml"/>
```

```
<DiskRegistry>
```

```
<HardDisks>
```

```
<HardDisk uuid="{xxx}" type="normal">
```

```
<VirtualDiskImage filePath="/media/software/virtualBox/winXP/winXP.vdi"/>
```

```
<DiffHardDisk uuid="{xxx}">
```

```
<VirtualDiskImage
```

```
filePath="/media/Software/VirtualBox/Machines/winXP/Snapshots/{xxx}.vdi"/>
```
